

Award Category	Innovation
Company Name	Enter company name here
Project Name	Enter project name here

Have you introduced new measures to become a more dynamic business? Have you implemented a new technique, product or an innovative approach?

When recognising and rewarding innovation, judges will look at the 'innovative activity', how it has been used and put into practice, how it has been developed and the positive effect it has had on a business' overall performance. Judges will consider:

- How you implemented this innovative research, planning, design or operations management?
- The cost-savings or benefits delivered to your business and industry?
- The impact of this activity
- The complexity of the problem or situation addressed.

Outline and describe your entry fully – tell us how it meets the requirements of this category. Add supporting videos, photos, testimonials and documentation to support your entry and remember, you can submit more than one entry and enter more than one category.

Deadline for submissions is 11.59pm on Friday 26 April 2024.

Our judges will award scores based on the following criteria:

- **Inventiveness (up to 15 marks):** Is the project original? What is new or different?
- **Practicality (up to 10 marks):** Was the project well planned/researched prior to work commencing?
- **Drivers (up to 10 marks):** What were the key drivers? What issues had to be overcome, i.e. was this an historical/unusual building?
- **Impact (up to 10 marks):** Were any significant technical problems overcome? Was the resolution suitable/well considered?
- **Diffusion/Spread and Adoption (up to 5 marks):** If there is a unique approach, is there potential for this to be adopted by other companies?
